PROJECTS

E-Commerce Web Application

- React for the frontend, with Node.js, Express, and MongoDB on the backend
- Developed and managed an e-commerce website that facilitates seamless online shopping experiences.

MERN Stack CRUD Application

- Enables users to create, read, update, and delete data, providing a fully functional interface for data management and interaction.
- The system enables seamless interaction with databases by allowing users to create, retrieve, update, and delete records in real-time.
