

Neshana Ck

Full Stack Developer | MERN | Python Django

8301978702 ◇ nishanack05@gmail.com ◇ Kozhikode, Kerala, India ◇ [LinkedIn profile](#)

SUMMARY

Full Stack Developer with hands-on experience in MERN Stack and Python Django development. Skilled in building responsive web applications, REST APIs, authentication systems, and database-driven applications using React.js, Node.js, Express.js, Django, MongoDB, and PostgreSQL. Passionate about clean code, problem-solving, and modern web technologies.

EXPERIENCE

MERN & Python Full Stack Developer

Present

GEN CORPUS DATA HUB

Kozhikode

- Developed REST APIs using Django REST Framework and Express.js.
- Designed responsive frontend interfaces using React.js and Tailwind CSS.
- Integrated PostgreSQL and MongoDB databases for scalable data management.
- Implemented authentication and role-based authorization systems
- Deployed full-stack applications using Vercel and Render.

EDUCATION

MERN & Python Full Stack Development in Python Django / MERN Full Stack, Gen Corpus Data Hub

Jun '25 — Present

Kozhikode, India

- In-progress immersive full-stack program covering Django, REST APIs, React, and deployment workflows.

B.Sc. in Computer Science in Computer Science, MHES College of Science and Technology, Cherandathur, Vadakara

2022 — 2025

Kozhikode, India

- Relevant coursework: data structures, database systems, and web development.

Higher Secondary — Computer Science in Computer Science, Memunda Higher Secondary School

2020 — 2022

Kozhikode, India

- Foundational coursework in programming and computer science principles.

PROJECTS

HealthTrack – Hospital Management System (Django)

- Role: Full-stack developer designing Django models, views, templates, and appointment booking workflows.
- Tech stack: Django, Django templates, SQLite, image/file upload for doctor profiles and media handling.
- Problem solved: Centralized hospital data with relational models for departments and doctors to streamline appointment booking and staff management.
- Outcome/learning: Delivered user-facing pages and admin CRUD tools to improve scheduling efficiency and backend data integrity.

CRUD Web Application (Django or MERN)

- Role: Developer creating RESTful APIs and integrating frontend interfaces for real-time data management.
- Tech stack: Django or MERN stack, RESTful endpoints, React frontend or Django templates for UI integration.
- Problem solved: Built reusable CRUD APIs and frontend components to simplify create/read/update/delete workflows across data models.
- Outcome/learning: Enabled seamless frontend-backend interaction and real-time updates to improve user productivity and data consistency.

SKILLS

Programming: Python, JavaScript

Backend: Django, Django REST Framework, Node.js, Express

Frontend: React, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, Vercel, Render

Concepts: REST API, CRUD, Authentication, MVC

Early-career note: Projects and training experience
